Student Counselling Cell

The Counselling Cell has been initiated by the College so as to provide a platform to address the psychological/emotional issues of the student community and help resolve them. It functions in the College premises with a team of faculty members. The Cell offers personal counselling, peer counselling, and academic orientation through teacher coordinators and trained counsellors. The service of a professional counsellor is offered as per the requirement.

Objectives of the Counselling Cell

- To support the student community in coping with academic and social pressures.
- To help students overcome their personal and psychological problems.
- To create awareness about mental health and motivate students towards the attainment of their set goals.

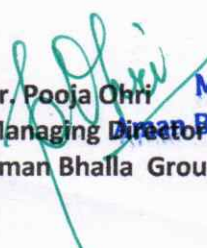

Roles and Responsibilities

- Conduct personal counselling sessions for the student community.
- Identify students with learning difficulties and offer help.
- Organize seminars on mental health.
- Conduct training programs on counselling skills for faculty.
- Address the needs of differently abled students.

Any student, teaching/non-teaching staff who wishes to seek help can contact any member of the Counselling Cell in the college.
